

Ravi Tharun

Front End Developer

tharunravi672@gmail.com | +91 73969 94383 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Software Developer with experience in full-stack web development using the MERN stack. Skilled in building RESTful APIs, responsive UIs, and secure authentication systems. Comfortable working in Agile teams, writing clean maintainable code, and delivering performance-optimized applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React.js, Tailwind CSS, React Hooks, Responsive Design Cross-Browser Compatibility, Bootstrap

Backend: Node.js, Express.js, REST APIs, JWT Authentication, WebSocket's, RBAC, Middleware **Databases:** MongoDB, MySQL, Redis (Caching, Sessions, Pub/Sub)

Tools: Git, GitHub, Postman, VS Code, Agile/Scrum, SDLC, CI/CD Concepts, API Integration

WORK EXPERIENCE

Backend Developer Intern — MERN Stack – Rebert Technology Pvt. Ltd. (Remote) *Dec 2025 – Apr 2026*

- Designed and maintained **RESTful APIs** with **Node.js**, **Express.js**, and **MongoDB** following SDLC best practices
- Conducted **API testing and validation** using **Postman**, ensuring reliability and contract compliance
- Implemented **image optimization** (PNG → WebP), boosting **Lighthouse Performance score from 30 to 80+**
- Collaborated in an **Agile/Scrum** team using **Git & GitHub** for version control, branching, and code reviews

PROJECTS

Project Management Web Application

Jul – Aug 2025

Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, SMTP

[GitHub Repository](#)

- Built and implemented full-stack **CRUD** workflows for managing projects, tasks, budgets, and priorities, enabling complete lifecycle control of project data
- Built **priority tagging system** (Low / Medium / High) with visual progress indicators and a dynamic budget range filter
- Developed **JWT-based user authentication** with protected routes and session handling for secure access
- Integrated **SMTP email notifications** that auto-trigger on task assignment, status change, and project updates
- Designed a **fully responsive UI** with React Hooks and Tailwind CSS – optimized for mobile and desktop

Learning Management System (LMS)

Apr 2026 – Present

Stack: React.js, Node.js, Express.js, MongoDB, JWT, Redis, WebSocket's, Tailwind CSS

[Live Project](#)

- Implemented **Role-Based Access Control (RBAC)** with three roles – Admin, Teacher, Student – each with scoped permissions
- Built **attendance tracking and leave management** with multi-level approval workflows (Student → Teacher → Admin)
- Developed **course and content management** for teachers to create, assign, and manage study materials per batch
- Integrated **real-time notifications** using **WebSocket's** for instant alerts on approvals, assignments, and announcements
- Applied **Redis caching** on frequently accessed routes, improving API response time by ~40%
- Implemented **secure JWT authentication** with refresh token rotation and role-specific protected route middleware

EDUCATION

Dayananda Sagar University, Bengaluru

2022 – 2026

B.E. Computer Science Engineering | CGPA:6.5 | 8th Sem Ongoing

Sri Chaitanya Junior College, Andhra Pradesh

2020 – 2022

Intermediate (MPC) | 67%

ADDITIONAL

Languages: English, Hindi, Telugu

Soft Skills: Problem-Solving, Teamwork, Communication, Adaptability, Attention to Detail

Availability: Immediate Joiner – Open to Full-Time & Remote Roles
